The Presbyterian Hunger Program (PHP) works to alleviate hunger and eliminate root causes.

YOU helped PHP in 2018 to support 113 grant partners, with $925,960 in grants, to make an impact in 21 countries, including the United States. In addition to grant partners, we also work with 20 presbytery Hunger Action Advocates, 116 Hunger Action Congregations, and 213 Earth Care Congregations.

Thank you for your financial contributions, time, energy, and prayers!

We address hunger by working for:

- **More and better food**
  People lack sufficient food and have insufficient access to money, seeds, land, water, equipment, or training to feed themselves and their family. Better also means everyone in the food production process is treated fairly.

- **Solidarity**
  The solidarity work we do with vulnerable communities includes changing unfair structures and passage of more just policies—around wages, labor, trade and job opportunities.

- **A more livable environment**
  Caring for creation is a necessity to ending hunger and poverty and the reverse also is true: the pollution, extraction, and harm done to the environment significantly worsens social and economic conditions for people who are hungry.

“The bonds of injustice, to undo the thongs of the yoke, to let the oppressed go free, and to break every yoke…then your light shall break forth like the dawn, and your healing shall go before you” Isaiah 58:6-7
