Hello!! My name is Akilah Hyrams. I am 22 years old and I currently reside in a town just outside of Charlotte, NC. I graduated from Hampton University with a B.S. in Biology in May 2016. I plan to attend medical school after I serve as a 2016-2017 YAV in the Philippines.

I have always had a passion for traveling and exploring the different cultures of the world. I believe getting out there and having new experiences is one of the best ways to see the amazing things that God is doing. I hope to grow in my faith as I serve in the community and learn many things that I can apply to my life as I study for and pursue a career in medicine. I would greatly appreciate encouragement through continuous prayers and support as I take this yearlong adventure in the Philippines!
