

# YOUR GIFTS AT WORK IN NICARAGUA

Supported by One Great Hour of Sharing and gifts to the Presbyterian Hunger Program (PHP), we and our partners are working to alleviate hunger & eliminate its causes. In 2017, a grant from PHP is supporting a project through Asociación Fénix in Nicaragua. One of their goals is to implement reforestation activities in degraded areas and areas affected by erosion. So far in 2017,

- Community youth have collected native Moringa seeds; 500 trees have been planted.
- Participants have been building community gardens.
- 200 mango, orange, and lemon trees have been planted to help reforest water source areas.
- Children have helped with reforestation around the school.

With support from PHP, Asociación Fénix will work in 2018 on establishing agro-ecological school gardens to offer food security and environmental education in 4 rural schools. The schools will have agricultural tools, water systems installed for irrigation, and kitchen areas built for food storage and preparation of meals.
