Greetings! My name is Briana and I am a recent graduate of the University of North Carolina at Asheville. I majored in Psychology and minored in Sociology because I am fascinated with human thought and behavior. After my year of service with the YAV program, I plan on attending graduate school to further develop my understanding of the human mind. Both children and underrepresented populations are of special interest to me, so I am extremely excited to serve as a YAV in Asheville, NC! Giving back to my local community, gaining insight on the populations I hope to dedicate my life's work to, and developing both personally and professionally will surely be a rewarding and invaluable experience!
