Hi. My name is Chris Utterback. I'm 23 years old living in Chico, California. I graduated from Chico state with a degree in Agricultural Business in 2015. Currently I am going to the local community college for their welding program, which I will be enter into next year. I grew up in a small farming town outside of Sacramento, called Sloughouse. On our farm we grow sod, hops, hay and raise cattle. I am looking forward to going to Arkansas and working with Ferncliff.
