Arguably the most essential people--those who grow and harvest the country's food--are being brutalized by the coronavirus, discrimination and scapegoating. Called 'essential' yet they are treated like they are disposable. Join Presbyterian Committee on Self-Development of People, Presbyterian Hunger Program and three farmerworker leaders from partner groups. Panelists include: Kathia Ramirez, Farmworker Support Committee-CATA; Antonio Tovar, Farmworkers Association of Florida; Erik Nicholson, United Farm Workers. Join us to learn about their situation, community organizing, and how we can support them.
