I am Lukus Ebert, I am 25 year old who loves to learn and discover new things everyday. I received a Bachelor's of Science in Sociology and a Minor in Leadership Studies with a Nonprofit Focus from Kansas State University in August 2014. I grew up in and am currently living in Manhattan, KS. I am still trying to figure out what I want to be when I grow up. All I know is I love advocating and helping those in need, as long as I am doing that I am where I need to be.
