My name is Olivia Orth, I am 22 years old, and I am forever seeking new adventures with every step I take. I just graduated from Westminster College in May of 2016, where I studied Elementary and Special Education with a concentration in mathematics. I am currently working in a community school as a Young Adult Volunteer (YAV) in Zambia, Africa. I am unsure of the experiences that will be coming my way during this next year of service, but I hope to never stop learning from those who I encounter, and to help others on their own journeys each and every day.
