My name is Patrick Long, I am 21 years old and was born and raised in Virginia Beach, Virginia. I studied business and have an associate degree in business administration. I am currently living and working in New Orleans as a Young Adult Volunteer (YAV) and am heading for another year of service and mission in New York City. I don't know what my plan is after my year in New York, but I am hoping to continue doing service work and to fight social injustice.
