Hello! My name is Zach Evans, and I'm a 22-year-old humbled as I am about to enter a year of service in the YAV Program. I graduated in May of 2016 from Stetson University in DeLand, FL where I majored in Philosophy and Religious Studies. I hail from the sunshine state of Florida; moving around as my parents received new pastoral appointments. This next year I will be living and serving in Denver, Colorado as a Dweller at the DOOR site in the city. While there, I will be working with the St. Francis Center, which is a refuge and resource center for those experiencing homelessness in Denver. I am excited for this opportunity of growth and service as I discern my call in life. I am not positive of my next step after YAV, but this year of solidarity with the communities I encounter will undoubtedly change me for the better as an ally for all those in need.
