Welcome! My name is Tanner Kohfield. I'm a 22-year-old graduate of Trinity University in San Antonio, Texas, with degrees in economics and political science. During college, I was introduced to the Presbyterian Church by my then girlfriend, and now wife, Dakota. At University Presbyterian Church, where I have worshiped these past three years, many of my preconceived notions of what it meant to be a Christian were stripped away, as I immersed myself in a welcoming community dedicated to spreading God's love and justice to all people. Now, I

am excited to embark with my wife on a new journey of faith and service at the Tucson, Arizona, Borderlands YAV site. As I begin this next stage of my life, I enter with an open heart and mind, ready to learn and grow from the people I will meet, stories I will hear and experiences I will live.
