My name is Thomas Schaufler. I have 18 years of life under my belt. Having graduated from high school, I have a vast world before me. I just have to figure out how I want to navigate through. I have had experience in working with and supporting minority groups and am a strong advocate. I am interested in the ministry, as well as having a certificate and a passion for working on small engines. I have grown up on a farm-ette for the last 10 years of my life which has given me a lot of experience in growing and raising veggies and livestock. I am excited to spend this next year in service through the Christian spirit.
